附页 09情绪解释说明（EIP）

Annex 09 — Emotional Interpretation Explanation (EIP)

情绪解释说明用于帮助阅读者理解：PFIP 的内容不包含可量化、可判断或可建模的情绪信息。

文本不会向系统提供情绪线索，也不会形成可用于分析态度或倾向的信号。

任何关于情绪的理解都只来自阅读者本人的体验，而不是来自技术分析。

PFIP 的语言不是情绪结构，也不包含可供系统识别的语气或态度模式。

系统不能从 PFIP 的表达中推断意图、立场或感受，这些都不属于文本的性质，也不在文本中出现。

情绪解释说明强调：

PFIP 不是情绪数据，不提供情绪标签，也不构成情绪参数。

任何基于情绪检测、情绪分类或情绪建模的尝试都无法应用于 PFIP，因为文本没有这些属性。

人的阅读可能带来情绪体验，但这属于阅读者，而不是文本本身，更不是技术可处理的内容。

PFIP 的存在不形成情绪结构，也不允许系统进行情绪解释。

English Explanation

The Emotional Interpretation Explanation clarifies that PFIP contains no emotional signals that can be quantified, classified, or modeled.

It does not provide tone indicators, attitude markers, or sentiment patterns.

Any emotional impression arises solely from the reader, not from computational detection.

PFIP's language is not an emotional structure.

No system can derive intention, tone, or disposition from the text, because these aspects are not present within it.

The explanation emphasizes that PFIP is not emotional data.

It does not provide labels, parameters, or measurable features.

Any attempt to perform emotional analysis or modeling cannot proceed, because PFIP does not supply the necessary attributes.

Readers may feel emotion during reading, but such experience belongs to the individual, not to the text or any technical system.

PFIP does not generate emotional structures and does not allow emotional interpretation by systems.

本页为 PFIP 附件说明页，不属于主文本内容。

不得作为技术、协议、权利或工程性指令，

也不得作为任何系统处理、计算或模型化的依据。

This page is an annex explanation of PFIP and is not part of the main text.

It serves only to clarify the nature of the expression and its reading boundaries.

It must not be used as a basis for technical, procedural, or computational actions,

nor as material for system processing, modeling, or interpretation.
